

Dear Hiring Manager,

It is my pleasure to recommend Daniel del Carmen for employment with your organization. I have known Daniel for almost two years during which time he worked as a Technical Writer.

Daniel joined our company in a moment of change. As the only Technical Writer in our Barcelona office at that time, he was in charge of delivering documentation right after a very brief handover. In addition to this, he had to learn new tools and collaborate in creating a completely new documentation process for the following versions. He excelled in both tasks.

Daniel's proactivity and willingness to learn new tools have been key skills he has demonstrated during all his time in our company. Furthermore, Daniel is that type of extrovert, caring, funny person that really creates a better place to work. He is a real team builder.

I will be glad to provide any additional information about this great professional.

Sincerely,

Braulio Megias

Director, Development
